I A T R I A N

WOMAN'S MEDICAL COLLEGE

PHILADELPHIA • PENNSYLVANIA

THE OATH

SWEAR

by Apollo the physician and Esculapius & Health & All heal & all the gods & goddesses that according to my ability & judgement

I WILL KEEP THIS OATH

to this stipulation to reckon him who taught me this Art equally dear to me as my parents to share my substance with him & relieve his necessities if required to look upon his offspring in the same footing as my own brothers & to teach them this Art if they shall wish to learn it.

WITHOUT FEE OR STIPULATION

That by precept lecture & every other mode of instruction I will impart a knowledge of the Art to my own sons & those of my teachers & to disciples bound by a stipulation & oath

ACCORDING TO THE LAW OF MEDICINE

but to none others. I will follow the system of regimen which according to my ability & judgement I consider

FOR THE BENEFIT OF MY PATIENTS

I abstain from whatever is deleterious & mischievous. I will give no deadly medicine to any one if asked nor suggest any such counsel. In like manner I will not give to a woman a pessary to produce abortion.

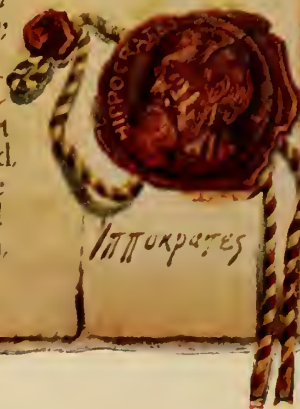

WITH PURITY & WITH HOLINESS I WILL PASS MY LIFE & PRACTICE MY ART

I will not cut persons laboring under the stone, but will leave this to be done by men who are practitioners of this work. Into whatever houses I enter, I will go into them for the benefit of the sick & will abstain from every voluntary act of mischief & corruption. AND FURTHER from the seduction of females or males of freemen & slaves.

Whatever in connection with my professional practice or not in connection with it I see or hear in the life of men which ought not to be spoken of abroad, I WILL NOT DIVULGE

as reckoning that all such should be kept secret. While I continue to keep this Oath unviolated, may it be granted to me to enjoy life & the practice of the Art respected by all men in all times!

But should I trespass & violate this Oath, may the reverse be my lot!

ΠΙΠΟΚΡΑΤΗΣ

Dedication

Hartwig Kuhlenbeck, Ph.D., M.D.

WE DEDICATE this book to Hartwig Kuhlenbeck, Ph.D., M.D., Professor of Anatomy, in recognition of his outstanding contributions to research and medical education. We are grateful for the many hours of laboratory and lecture that Doctor Kuhlenbeck has given to us. We realize how very fortunate we have been to begin our medical education under the direction of a man so worthy of our deep respect and gratitude.

This eminent teacher, linguist, and scientist has had a varied background. After graduating from the University of Jena, Germany, he was lecturer in Neurology and Anatomy, Imperial University of Tokyo, Japan, 1924-27; Assistant and Privatdozent, Department of Anatomy, Medical Faculty, University of Breslau, Germany, 1927-33; Visiting Fellow in Anatomy, University of Pennsylvania, 1934-35; and Professor of Anatomy, Woman's Medical College of Pennsylvania, from 1935 to the present time. During World War II he took a leave of absence from his many duties to serve with the United States Armed Forces. During this time he investigated and reported data on the medical and sanitary conditions existing in the Far East, and continued his own researches

at the Army Institute of Pathology.

Doctor Kuhlenbeck is a member of the American Association of Anatomists, American Association of Neuropathologists, and Sigma Xi, University of Pennsylvania.

Outstanding among his publications are: *The Derivatives of Thalamus Dorsalis and Epithalamus in the Human Brain: Their Relation to Cortical and Other Centers*; *The Human Diencephalon*; *Teaching of "Living Anatomy"*; *Diseases of the Brain Stem and Its Cranial Nerves* (with Webb Haymaker); *The Supraoptic Crest in the Human Brain*; *Brain and Consciousness*; and a long list of papers in his field of greatest interest, Neuro-Anatomy.

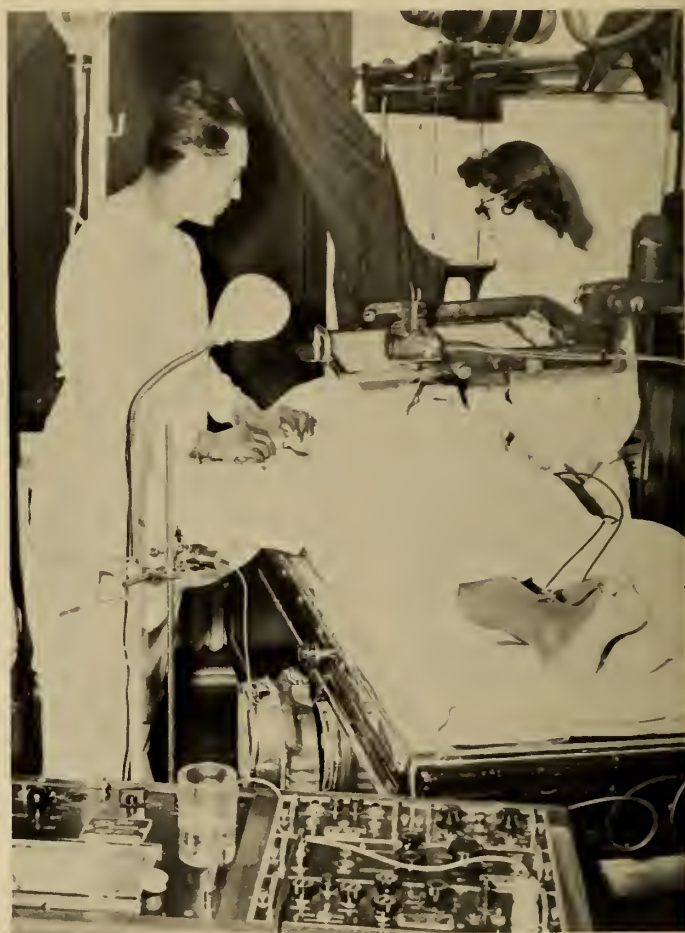

Doctor Kuhlenbeck is an outstanding example of a man whose efforts are dedicated to scientific pursuits. He is a man of great purpose and ability. He has devoted endless hours to the teaching of students and has imparted to them the benefits of his intelligence, experience, and ability. He is truly a scholar who ranks among the eminent personalities in the field of medicine, and it is with great pride that we dedicate the 1958 Iatrian to Doctor Hartwig Kuhlenbeck.

Within the past century, the medical profession and the pharmaceutical industry have become united by a single bond—the responsibility for human health. Putting the finest quality medicines in the hands of American physicians helps to provide the highest standard of medical care the world has ever known.

CONQUEST—COURTESY OF SCIENCE

There is dramatic evidence today of the far flung role of science in man's conquest of his environment. While science compresses the infinite reaches of outer space, it also seeks control of the tiny virus.

Thus, the thirst for knowledge—the arena of pure research—may send us in many directions. No matter what the immediate goal may be, however, the ultimate aim is a better life for everyone.

In the past, man has invariably been the beneficiary of an era of great scientific development. The hope is universal that he will benefit in the future.

TO THE CLASS OF 1958

THE ALUMNAE ASSOCIATION

PROUDLY WELCOMES THE 106TH

GRADUATING CLASS

INTO ACTIVE MEMBERSHIP

WE SALUTE YOU

HISTORY OF THE ALUMNAE ASSOCIATION
OF THE WOMAN'S MEDICAL COLLEGE

Founded March 11, 1875 when 31 Alumnae first agreed to associate themselves for the interest of the college and for their mutual benefit.

In 1951, the Alumnae Association was incorporated, and the following objects were adopted:

1. Promotion of welfare of the Woman's Medical College
2. Recognition of women in practice of medicine in U. S. A.
3. Advancement of women in the study of medicine
4. Their mutual interest and benefit
5. Cultivating friendly feeling among W. M. C. Alumnae

To date Woman's Medical College has graduated 2,464 — 220 of them from 42 foreign countries. Today there are 1,339 living members. We are proud of their attainments.

Ten standing committees, each comprised of five Alumnae members, run the affairs of the Association. An appointive committee, the Alumnae Student Affairs Committee, exists to promote student welfare and mutual understanding.

On the day of graduation every student becomes a member of the Alumnae Association of the Woman's Medical College. We invite you at the undergraduate level to become acquainted with your Alumnae Association and join our efforts to assist our Alma Mater.
